

Awakening The Dreamer

This workshop invites you to explore where we are as a human family, how we got here, and what's possible now!

Saturday, January 26, 2013, 9:30 a.m. - 4 p.m.

*See I am doing something new!
It springs forth even now. Do you not
perceive it? Isaiah 43:19*

God is showing us that we are a part of an interconnected and ever-unfolding reality bigger than we can see and we are encouraged even as we consent to be changed.

Morning Session

Our morning session will lay a foundation of understanding about the state of our Earth Community by presenting excerpts from *Awakening the Dreamer*, a symposium that boldly envisions bringing forth a spiritually fulfilling, environmentally sustainable and socially just human presence on Earth.

Afternoon Session

The afternoon session will be an exploration of the relationship between contemplative prayer and the 'something new' wanting to be born. Our communal reflection will be guided by Joanna Macy's framework for *The Great Turning* from an industrial growth society to a life-sustaining society.

Catherine Regan Ph.D. is a spiritual director, clinical psychologist and adjunct faculty member at Mercy Center, Burlingame. She has a special interest in the relationship between contemplative spiritual practice and the call to live in harmony with life on Earth.
